

Wheel Catalog

---

Hipnotic Wheels has again taken another innovative step with the introduction of the newest technology used in wheel manufacturing! The new Ultra Light Wheels now allow car enthusiasts to equip their cars with the finest wheels in the industry while improving their cars' performance! The Ultra Light Wheels are made with highly-advanced techniques to significantly reduce the weight of the wheels and still ensure that Hipnotic Wheels' signature look is not compromised!

Hipnotic Wheels & Blaque Diamond are also proud to announce the release of their most exclusive line to date, the Signature Series. The Signature Series was carefully created to give exotic car owners the final detail to perfect their cars. Maybe nothing is perfect, but the Signature Series certainly gives you taste!
